Professional profile

Aspiring data analyst and BSc (Hons) Computing student with practical experience using Python, SQL, Power BI, Excel and Tableau. Developing a portfolio focused on data cleaning, database management, dashboard development and operational data analysis.

Recent work includes an Aircraft Engine Monitoring project using Python to generate simulated sensor data, SQL Server to structure and manage the dataset, and Power BI to create an interactive condition-monitoring dashboard.

Public-sector and administrative experience includes document verification, records management, customer service, regulatory compliance and handling sensitive information. Brings strong attention to detail, accuracy, organisation and problem-solving skills.

Seeking opportunities in data analysis, information management, technology support and entry-level cybersecurity.

Technical and transferable skills

- **Data and reporting:** Python, SQL, SQL Server, Power BI, Excel, Tableau; data cleaning, database management and dashboard development.
- **Applications and systems:** Microsoft 365, SAP and Ellipse; accurate record keeping, operational reporting and technical administration.
- **Cybersecurity learning:** OWASP Top 10, OSINT and practical training with Burp Suite, Wireshark and Nmap.
- **Professional skills:** document verification, confidential information handling, case management, customer service, stakeholder communication and problem-solving.

Selected portfolio projects

Aircraft Engine Monitoring

Generated simulated educational sensor data with Python, structured and managed the dataset in SQL Server, and developed an interactive Power BI condition-monitoring dashboard.

OilPulse Analytics

Developed a five-page Python Streamlit application for oil operations analysis, using Pandas and Plotly for data processing and interactive visualisation.

Education and development

BSc (Hons) Computing | Bath Spa University | September 2024 - present

Cybersecurity internship and practical training | Wizcore Global IT Training | 2025

Professional experience

Public service, technical administration and customer support

Magistrates Case Worker Administration

Ministry of Justice UK | April - July 2026

- Supported government customer-service and administrative processes requiring accuracy, confidentiality and adherence to procedures.

Clerical Administration Officer

St Helens Council | December 2025 - March 2026

- Processed taxi and private hire licensing applications and verified identity, right-to-work and supporting documents.
- Maintained confidential case records, handled public enquiries and supported regulatory compliance activity.

Technical Administration and Business Support

National Gas | April - December 2025

- Maintained technical and operational records, raised and monitored work orders, and supported operational reporting.
- Coordinated with engineers and internal teams to resolve queries and keep documentation accurate and up to date.

Cybersecurity Intern

Wizcore Global IT Training | 2025

- Practised vulnerability identification in authorised training labs using OWASP Top 10 principles and tools including Burp Suite, Wireshark and Nmap.
- Developed practical understanding of web application security, OSINT and documenting security findings.

Customer Service Advisor for UCAS

Adecco / Serco | July - September 2024

- Supported students with university applications and online system queries while maintaining accurate records and protecting confidential information.

Administration Officer for UK Visas and Immigration

Home Office via Brook Street | November 2023 - April 2024

- Reviewed supporting documentation, updated secure case records and responded to public enquiries.
- Identified discrepancies and worked with internal teams to resolve case queries.

Passport Administration Officer

Home Office via Brook Street | June - October 2022

- Processed passport applications, verified documentation and maintained accurate records in line with government procedures.

Customer Service Advisor for Universal Credit

Serco / DWP | January - April 2022

- Handled claimant enquiries, updated secure records and escalated safeguarding concerns and complex cases.
